AN OPEN LETTER

Open Letter.
Washington, D. C., Sept. 6, 1910.
Ir. A. T. Stuart, Superintandent of Public Schools, District of Colum-

Dear Sir: The Act of Congress creating and defining the duties of the present Board of Education for the District of Columbia imposed upon the superintendent vast power and re-sponsibilities, not the least among which is that of naming certain subordinate officers second only to the superintendent in authority and power.
In the continuance of Mr. Percy
Hugnes as your chief aid for the white schools you displayed your usual good quently, and often leave the mule and judgment, for in Mr. Hughes the white plow in the field and lie under a chools have a broad-gauge educatora man who is not only familiar with the school system, but by his knowledge and thoroughness has impressed both teachers and pupils with the fact that he possesses all the qualifications for a safe and sane guide. On the other hand, the legacy left by your as in theory, will make a more efficient and reliable class of helpers in such superintendent for the colored schools, has proven a lamentable failure!

Inducted into a position previously held by such competent and experi-enced educators as Cook and Montgomery, the present incumbent, after a few months drilling, was placed by the before-referred-to superintendent at the head of the colored schoolsa position next in numbers and importance to that held by yourself. If glected in the home life of the presentit were a chair in some college instead of the head of a vast school system, he would flounder in its vastness; as it tuberculosis fatality? Work is a panis, X-rays fail to do justice to his in- acea for all disease. Let there be less

of their schools, not because Congress duce a better class of boys and girls has placed in your hands the remedy; but from the fact of your personal knowledge of the great difference in the colored school management under Cook and Montgomery. The former, as you are well aware, were com-petent and practical educators, while go on without improving their meththe present accident is a visionary theorist and experimentor.

Mr. Superintendent, no large body, civic or otherwise, can be successful unless there is confidence in the ability and integrity of those at its head. The lack of those pre-eminent elements for success is one main reason why the colored schools are trailing behind the white schools. The teachers' confidence as to the prac-tical knowledge and reliability of the misfit at the head of their schools is of a variable quantity. Those, and they are few in number, who fawn for favors, are loud in their praise of the youth of Tuskegee, but the reliable mass who appreciate the trust, people's children, confided them are compelled to witness daily the type of farmer who says, 'I am fruitless attempts to engraft on a public school system the ligaments of col-

correctness brought to your official with him when he pronounces judgnotice pertaining to the management of the colored schools, and, having occupation, but in accordance with done so, weigh them by your sense of conduct. justice; then add a margin for the silent, suffering teacher. The result, to speak of a farm in Virginia, man-I feel sure, will be to the advantage aged and worked by a lawyer and his

of the colored schools.

In conclusion, Mr. Superintendent, Tuskegee is a wonderful institution and Dr. Washington's great insight into personal fitness and character has unquestionably made it what it is, as he is known to get none but the best educators, and let go only those who fail to make good.

I am, with respect, THE EDITOR.

CULTIVATING THE FARM.

Regrets of Farmers-Col. Roosevelt's Address.
Rural district life is engaging the at-

ed every phase of life on the farm. throughout the country.

The preachers, teachers and other leaders who are interested in the affairs of humanity, should lay more stress upon the importance of drawing the sustenance of life from the breast of the soil, thereby inducing 5-BEE

the young to improve their rural dis-

gate daily and play crap, when they should be at work; and banish them plants the seed the same as Mr. Goldsfrom the railroad stations and pool from the railroad stations and pool rooms of our towns and villages, it would be of untold value in the solution of the many problems which confront us, and be as great a benediction as compulsory education. If every county in the different States of the Union had its social settlement workshop including a farm, where workshop including a farm where were workshop including a farm where workshop including a farm where were workshop including a farm where were workshop including a farm where were well as the following the farm is located in Nelson (County, Virginia, in two forks of Rev. Lucus.

They Take Exception to the Action of Rev. Lucus.

It would seem from the action of the highest commendation. She was dignified and sweet in her singing to the highest commendation. The choruses are good and the young ladies show off to an advantage of the workshop in the farm of the many problems where the following the farm of the farm of the highest commendation of the workshop in the farm of the farm o

wages, part of which should be deducted for food and clothing, and the other part should be placed in the bank to their credit during their apprenticeship. When they have been trained to respect the dignity of labor and taught to work and can and will work, release them and use this accumulat-ed money to start them on small farms, or some other self-supporting

enterprise. In conversation with a farmer and his wife in one of the States the other day they said: "We hire hands to work and these hands, instead of giving an honest day's work for the pay promised, work to kill time. leave them they slip to the orchard or to the watermelon patches, or go to the spring, half a mile away, frespreading shade tree and sleep." A farmer in another State said: "I have almost given up the hope of making any progress on my farm with the kind of labor now available."

But the industrial school, where agriculture is taught in practice as well tricate problems. Therefore, every county should maintain a compulsory agricultural work-settlement for the indolent, non-criminal class, who can

work and will not work. Every public school should have an industrial department, and teach the girls to cook and to keep the house book grinding and more knowledge Mr. Superintendent, the colored about agriculture and domestic sci-people look to you for the betterment ence. A return to the farm will prowho will develop into self reliant and reliable men and women.

In his Utica address, Mr. Roosevelt told the farmers that they ought to avail themselves of expert advice from technical men, and not be content to ods of farming. He thought that the farm life should be made more attractive and that the farmers' wives ought to have an easier time. He spoke of the country church, and urged the farmer to have the right kind of religion.

Adam and Eve were the first farmers, and they combined farm work and religion, and had the best preacher— God. On every large farm there should be a church and a school, and the preacher and teacher should be as godly as it is possible for human be-

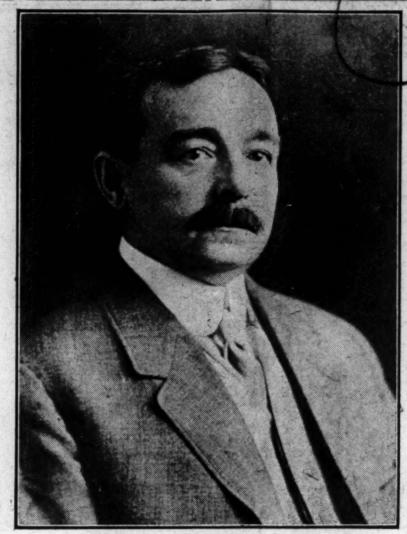

ings to be.
Says Mr. Roosevelt: "I want to be when he says, 'I am against a bad Mr. Superintendent, analyze the type of lawyers, or bad type of many, many things of questionable bankers.' In other words, I will go

TOLD ALL HE KNEW AT ONCE

Dyspeptic-Looking Man Successfully Choked Off the Conversation of His Fellow Passenger.

A dyspeptic-looking man had taken his seat in a railway carriage, when a fellow-passenger bent forward with a confidential "Pardon me, sir, but what-" The dyspeptic was ready.

"Adam was the first man," he said, in a cold, dull monotone. "Moses was the meekest man; there never was any meekest woman. Columbus discovered America. In the winter of 1847 and 1848 potatoes formed almost the sole food of the Irish peasthem. A door is not a door when its soap. I-

Here the inquiring man attempted an interruption, but it was of no training them wisely. No higher edu-

"The foregoing information," went on the accentless voice, "is all I know about anything of any name or nature-past, present or future. I want nothing in the world but quietude." he added; "and if you don't let me alone I'll throw my grip out of the window and jump out after it. I have spoken!"

Wonder of Nature.

During the course of a voyage recently, when midway between Marseilles and the Strait of Bonifacio, a "green flash" was seen at sunset. The sky was perfectly cler after a cloudless day, with little wind. As the sun approached the horizon the line 'twixt' sea and sky for about forty-five degrees each side of the sun became suffused with a rich dull rose pink and the waves reflected a marvelous ruby shade on their surfaces facing the sunset, while the other faces were an opalescent blue or green from the upper sky. The two colors flashed and changed in a marvelous way. Such intensity of coloring had never been seen by those on board. The sun set clean into the sea and about ten or less seconds after it had disappeared a bright green single flash, just like raflway signal lamp, but brighter far, met our view and rewarded our watching for it.—Symon's Meteorological Magazine.

Rejects Favorite Dish. One of the articles of food that Street, Philadelphia, ra. have disappeared from the New York restaurants is the thick slice of cold

ference where you go or what you pay," said a New Yorker who always seeks this dish when he dines in a restaurant, "you never find the thick, cold slab of a few years ago. It is gone. The price asked for cold roast beef is everywhere higher than it was and the difference ranges all the way from five cents to a quarter. But neither the place nor the price seem to avail. The slice is certain to be about half as thick as it used to be. And I'm not the only man who'd pay even a greater advance for one of the old thick slices."

Female Education.

There is no division of opinion as to the goal for which our girls are educated. More and more out of the chaotic past the conviction stands out antry. White sheep eat more than that each one of us is in training for black ones, because there are more of the service of the race. A woman's goal, like a man's, is to give up her RO MORE TROUBLE FROM PUNCTURES ajar. Golf is pronounced 'goff.' TANGIER"HOLYMAN"

HAD LEARNED THE METHODS OF BARNUM AND BAILEY.

American Experience Aided Charlatan In Gaining the Reverence and Small Coin of His Fellow Believers.

"There is hardly anything more enjoyable than to find an unexpected bit the west in places thousands of miles and hundreds of years from the United States," said a New York man, according to the Sun of that city.

"My wife and I went to Tangier from Gibraltar. The day after our arrival we paid an early visit to the market. Suddenly, as we stood looking on, there was a commotion in the crowd, which parted right and left. I could hear the clash of cymbals, but was amazed to see men bowing almost to the ground as they made way. In the lane thus created appeared a tall man wearing a long robe of many colors and a necklace of charms. He kept his eyes turned heavenward as he walked, keeping up a clashing with a pair of cymbals as he proceeded. At self." his girdle was a gourd into which some of the multitude tossed copper coins. My courier told me that he was a dervish, a holy man from the Sudan.

"I thought the dervish would make a good subject for my camera, but the courier said he doubted whether it could be arranged, as all good Musselmans had religious scruples against being photographed. I insisted, and the courier said he would do his best.

"So we followed along after the dervish, through a little side street into a broader one, and having turned the corner the courier approached the dervish and exchanged a few words with him. The holy man looked to see whether any Mohammedans were looking on, and there being none in sight he nodded in a dignified manner. He posed while my wife and I took several good snapshots of him.

"I went up to give him a small token of thanks and was surprised when, after looking at me a moment, he said: 'English?'

"'No,' I replied, 'American.'

"'Ah! American!' he cried. 'Me America,' he continued, pointing toward himself. 'New York, Brooklyn, Philadelphia, St. Louis. Six months Barnum & Bailey.' He smiled all over as he took what I offered him, then bowing in a dignified fashion he went off, casting his eyes toward the sky try many things have a better chance and clanking his cymbals as he went.

"The next morning we went to the market again. Suddenly again we heard the cymbals clashing, and saw its hairs are gray and its years many. the crowd part, and almost prostrate It promotes snobbery and creates itself, and in a second our dervish snobs, though it will not be supposed friend of the day before appeared again, his eyes piously cast toward heaven.

"We were sitting on our donkeys and watching him in some curiosity as he neared us. Just as he got opposite he turned his head in our direction. He caught my eye and the lid of his left optic closed in one long, eloquent wink."

A Dry Occasion.

Brook, Ind., where George Ade prac-

Last summer, one broiling hot day, a man came along in an automobile, having just patched up a puncture outside of Brook.

He ran into the little village and saw a native standing in front of the general store. He stopped his machine and went up to the native.

"Say, brother," he said, "will you tell me where I can get a good, cold bottle of beer around here?"

The native took the autmobilist by the arm out to the middle of the road, pointed down its dusty length, and said: "The nearest place is 50 miles right down that road."-Philadelphia Saturday Evening Post.

About Egypt.

The total area of Egypt proper is about 480,000 square miles, of which however, only some 14,000 square miles are arable. The population exceeds 10,000,000, the density of the settled part thus surpassing that of any other land on earth, Belgium not excepted. This superiority of Egypt as an agricultural country is owing to the equable climate; the possibility of carrying on farming all the year round, a constant supply of water and, as a consequence of the Nile overflow, a natural and perpetual richness of the soil, which does away with the great cost of fertilization.

For the Scandalmonger.

The Orleans museum has just been enriched with a curious relic of the past which some workmen in making excavations in the city came across. It is a stone representing a grinning figure, showing the teeth, the countenance being repellent enough. In this way the loquacious woman, the scandalmonger, was brought to her senses. The stone, suspended by a chain, was placed round her neck, and so accoutered she was compelled to walk round the town in which she lived. The stone is supposed to date about the sixteenth century.

No Chance for Fraud. Jones (to friend who is showing his

Friend-Oh, I was too smart to play into the hands of a dealer. I bought 'em myself right on the spot.—Judge. | bad acting."

Pilgrim Was Looking for Iron Springs But That Story Was More Than He Could Stand.

He was a weary, thin and sallow looking American, who had never been so far west before, and when he struck Carson City he hailed the first native he met.

"Can you tell me, sir, if there are any mineral springs about here?"
"From the east?" asked the westerner.

"Yes." "Come here fer ver health?" "Yes."

"Tried everything, I suppose?" "Yes."

"Tried surphur springs?" "Yes. Didn't help me a bit." "Been to Arkansas?" "Yes, and everywhere else."

"What kind of water are you look ing for now?" "Well, no kind in particular. I was told, though, that I'd find a variety of

springs out here." "Going to locate?" "That depends."

"Well, stranger I have got just what you want. A vacant lot in the best part of the city. Finest iron springs in the country. Go and see for your-

"But how do you know it's iron?" queried the easterner.

"Well, pardner, I drove my horse through it and he came out with iron shoes on his feet. And that ain't all. I drove some pigs down there to drink. They turned into pig iron, and I sold them to the iron foundry. Just what you want. For sale, cheap. Why, halloa! What's the matter?"

The weary easterner had turned abruptly and was walking off up the road.—San Francisco Chronicle.

Why England Believes in a King.

The great majority of Englishmen of all grades and opinions do undoubtedly believe in a king, and think they have some fairly good reasons for do-

The great reason, of course, is that on the whole the system works, or seems to work, fairly well. It is very costly. Everything included, it probably costs ten times as much as the average man thinks; and if a rate were levied for the purpose on him, he might feel it and begin to grumble. But the money is derived from the duchies, or voted from the taxes, and nobody feels the pinch or even knows the difference. It is a rallying point for all kinds of senseless anachronisms and abuses. But in an old counof continued existence by being old than by being good, and an abuse comes to be esteemed almost when to be unpopular on that account .-The Congregationalist.

To Save Alcott Home.

Efforts are being made to inaugurate a movement for the preservation of the old Alcott homestead in Concord, Mass., where Bronson Alcott lived and died and where Louisa Alcott created the immortal children that run through the pages of "Little Men" and "Little Women." The place at present is fast falling into hopeless tises gentleman farming, is right in decay and action must be started soon the middle of the teetotal belt of In- if it is to be preserved at all. "Perhaps if Miss Alcott had been dead two centuries instead of only about 30 years her former home would not be in such a dangerous plight as it is today," said a New York woman who is trying to interest others in its preservation. "But by and by Miss Alcott will have been dead 200 years and if Orchard house is not saved now American soil in future generations will be the poorer for our neglect. We never shall raise a harvest of ancient associations for our land unless we take care of the associations while they still are comparatively modern."

A Different Sort of Doctor.

Dr. Charles Harriss, the well-known Canadian musician and composer, tells an amusing story about himself.

While he was on his way to South Africa, he desired to keep his identity a secret. During the voyage one of the passengers managed to get into conversation with the musician, and asked him if he would medically examine his little girl who was with him on the boat

"My dear sir," replied Dr. Harriss, I have never examined a child in my

Ten minutes later, he overheard the passenger say, in the smoking-room: "There you are; didn't I say that man was a fraud?"

The Girl Grad.

Mark Twain was a firm believer in the higher education of woman, but Hartford still remembers a speech he made one June to a platform of Hartford girl graduates.

This speech, a humorous attack on the college girl, ended:

"Go forth. Fall in love. Marry. Set up housekeeping. And then, when your husband wants a shirt ironed. send out for a gridiron to do it with."

Metaphorically Speaking.

"What do you think of these new palaces I have been rearing?" asked Mr. Dustin Stax.

'Magnificent," replied the cynic. 'Yet," he proceeded with a visible effort to be modest, "this earthly pomp reminds me that all the world in a

stage." "Right. And the modern tendency is to make up with the fine scenery for

TOO MUCH FOR EASTERNER! ON THE SKYSCRAPER

STRENUOUS LIFE IS THAT OF THE IRONWORKER.

Well Styled "Cowboys of the Skles," the Men Who Erect City's Tall **Buildings Always Have the** Crowds.

In the past they were a boisterous, swashbucking lot. They "floated from New Orleans to Vancouver, lived in freight cars, built bridges and dropped off of them with a grin and a choking "good-by." A hero among them was a man who had the longest fall to his credit, or who could toss a white-hot rivet the greatest distance. They lived hard and died easily. Today they know that a man stands highest on the pay roll who takes his work and its danger most seriously, who also watches the man next to him-for in this calling one man's error often means another's life, Harper's Week-

Even so the bridgeworker of today has not lost his romantic side. He is still the cavalier of the workaday world. See him now, clinging like a fly to the top ring of that lofty derrick, or swaying in midair with one leg wound carelessly about a dangling cable, or standing upright alongside a dizzy column, hundreds of feet above the ground, with nothing more substantial under his clinging toe than an inch-wide bolt! The plumber laying pipes in the dark basement gets just as high a wage and his work is quite as important. But the ironworker gets the eyes of the crowd and knows it. "Cowboys of the skies" they have been styled, and aptly so. They have many characteristics in common with their brethren of the plains. They love a dare and a scampering race. Often they make and have them-when the boss is not watching. Just recently two skyscrapers in New York raced up side by side-a veritable Marathon of the skies!-and prodigles of daring and foolhardiness were done by the rival gangs facing each other across the intervening side-street. They stole each other's hats and wrenches as they sailed up atop the loads of iron, danced giddy hornpipes on the ends of projecting beams, tried to "best" each other taking chances amid the pandemonium of whip-snapping cables and

swinging iron. They affect extravagances and peculiarities of dress. That athletic-looking fellow with the grimy face and hands appears on idle Sundays in white flannels and silk hose. The man beside him is a favorite at bridgemen's dances and has been known to wear and grace a frock-coat. They made no serious complaints over the new order of things-the rush of the work. "Sure," said one, "it's all right, only it's over nowadays before you get your second wind."

Said another: "This going up at a story a day interferes with me social life. On that 13th street building there was a hotel within arm's reach. and one day I got to talking with a pretty maid-through a window. Next day I had to talk down to her and next I had to yell to her, and in two days more I had to say good-by.

"'Good-by!' says she. 'Sorry to see you go; but I'll introduce you to my friend Katle who works on the tenth

Be Cheerful.

Engraved faces are more often the result of habit than the marks of Time, that professional etcher, who usually receives all the credit for feminine ugliness. Woman is not content with expressing herself in words: she must needs make little noses and funny faces to give completion to her ideas. If you wail about your lack of beauty, watch yourself for one short day. You will be surprised to find what wonoderful things you will do with your own face. If countenances were not so substantially built they would sooner show the wear and tear imposed upon them.

Wrinkles and lines are indexes to one's life book. The fretter has a signboard on her forehead and she advertises her profession of official worrier by growing box plaits between her eyes, by allowing her mouth to droop at the corners and by taking on the plaintive portrait of misery in

which she really rejoices. But the optimist, the individual of good cheer and laughter, sails serenely along the high seas of existence with a smooth, nicely ironed face, which makes her remain so young that she never really outgrows her happy days of mud pies and pinafores.-Woman's Life.

Sovereigns Who Died on Saturday. Authorities on things supernatural may be able to explain why Saturday has been a fatal day to the rulers of England. William III died on Saturday, March 8, 1702; Queen Anne on Saturday, August 1, 1714; George II on Saturday, October 25, 1760; George III, on Saturday, January 29, 1820, and George IV on Saturday, June 26, 1830. George I just missed Saturday by two hours, dying at 2 a. m. on Sunday, and the late King Edward breathed his last just a quarter of an hour before midnight, Friday night, May 6.

WORTH ADVER TISING FOR

There are 5,499 Negroes em ployed here in Washington by the Government alone, and these 5,499 Negroes draw salaries aggregating \$3,044,404. These more than three millions of dollars are spent right here in Washington, but scattered among the hundreds of tradesmen. Is this amount of money worth bidding for? It certainly is, and not even the largest stores in this proclamations eliminating nearly half city would refuse to get the big end of it did they but realize how much money the Ne roes are really spending.

Now The Bee is the only Negro publication in this efty. It stands without a rival or competitor, and covers the field like a the Hampton Negro Conference will a few of the merchants in this city will patronize the advertising columns of The Bee, presenting the attractive bargains they may have, these Negroes - these 5,499 Negroes who draw annually from the Government over three millions of collars - will assume that by pet ronizing a publication edited and operated by one of their race that such firms desire and deserve their patronage. And such firms will receive the bulk of these over thre milions of dollars received and spent by the Negroes of Washington.

What clothing stores, what furniture stores, what dry goods stores and what other lines of business will now make an effort to divert to themselves these over three millions tf dollars spent by Washington Negroes by advertising in The Bee?

Place your advertising in The Bee and watch these 5,490 appreciative Negroes spend their over three millions of dollars with you. Now is the time to advertise in The Bee, the newspaper that goes into every Negro home in Washington. Remember, merchants of Washington, it's what advertising pays you, not what it costs.

MORE MONEY- RACE PROGRESS.

If colored people groom themselves daintly, destroy perspiraion odors, remove grease shine from the face, and use our new discoveries for improving the skin and dressing the hair, they will be better received in the business world, make more money, and advance faster.

The Chemical Wonder Company of New York is the best business friend colored people have. It improves their bodies as Dr. Booker Washington improves their minds. That Company manufacturers nine Chemical Wonders, which will make colored people as attractive as individual peculiarities will permit. Colored men in New York who use these Wonders hold better situations in banks, clubs and business houses, and women have better positions, marry better, get along better.

(1,) Complexion WonderCream will light up any colored face (black or brown) every time it is used. To prove this on one trial, we send demonstration sample for 10 cents. Regula. ar, 50 cents postpaid.

(2) Magneto-Metallic Comb, called Wonder Comb. Can be heated before using, to help straighten and dress the hair

Costs 50 cents, and will last a lifetime. (3) Wonder Uncurl. When this pomade dressing is in the hair the kinks can be uncurled and the hair becomes flexible. When heated into the scalp and through the hair with a Wor der Comb, any stiff, knotty hair will dress well. 50 cents post-

(4) Wonder Hair Grow fertilizes the scalp and makes hair grow long, just as fertilizers in the soil make cornstalks grow. 50 cents postpaid.

(5) Odor Wonder Powder instantly destroys perspiration odor. People who neglect such chemical cleansing are obnoxious. 50 cents postpaid.

(6) Odor Wonder Liquid. This fine toilet water surrounds who are living in crowded houses the body with delicate perfume. When used with on small plots of land in towns or Odor Wonder Powder the conditions of the body become percities who want real freedom and fect. If you can spare 50 cents extra, order this luxury. 50

(7) Wonder Foot Powder keeps the feet dainty. 40 cents.

(8) Wonder Wash. A shampoo to clean from dandruff and insure the health of the hair and scalp. 50 cents postpaid-(9) Shell Pink Creme will give light brown girls beautiful

pink cheeks without made-up appearance. 50 cents postpaid. We guarantee all these Wonders as represented. We give advice free about hair, skin and sealp.

SHALL OKLAHOMA JOIN THE SOLID SOUTH?

In adopting the Taylor Amendment The Grandfather Clause," to the Constitution, Oklahoma has justified the hopes of its enemies. It has proven that in its makeup and intentions it is Southern instead of a Western State; and the ambition of the present administration seems to be to line it up with the Bourbon Democracy.

The adoption of the Grandfather Clause is a step backward. It is a thrust at all efforts the Negro has made these forty-five years to make a that proper arrangements can be made man of himself, to rise in the scale of for the delegates before they reach civilization, and to develop the best within him.

It is up to us to fight this measure to the last ditch, at whatever cost to us. Therefore we should understand the import of this meeting.

It seems that the fair proposition ind and would have been to disfranchise the Sheriff fellow who had a grandfather who could read and write, and whose son

The Grandfather Clause is a naother Southern States will adopt the same law; and from this source the officers of each county organization the first place, the colored vote is cover. There was just a hot-headed same law; and from this source the

that he would appoint no Negroes to important offices in communities where a large body of the whites objected. He stated that this was in pursuance of what he believed to be the best policy for the preservation of friendly relations between the races. Growing out of this policy, he declined to appoin Dr. Crum to be collector of the port of Charleston, S. C. Upon this policy he recently appointed Henry S. Jackson, a white man, collector of Internal Revenue in Georgro, who had already held the office. friendly act from the administration, tending to remove what they term

The Black Peril. The Republican party in Texas has ust announced that it is now a body were trying to get out of the country, for white men, and that only white men shall hold office in the organization. As a result, the Negroes of the cavated. State of Texas are organizing with a proposition to join with the Demo-

Under the Grandfather Clause the Negro stands no chance as against such a test. He may be highly edubeen informed, and at this distance we cated; but since the election boards know of no other cause adequate to are made up of white men, he is inignorant whites apparently meet the require-

It is expected that those to whom this call is sent will get active at once in their respective counties and prepare for a mass meeting in their counties to select delegates in time to send a list of delegates elected to our Muskogee office by September 4, so that proper arrangements can be made

Boley. Each county is entitled to a staff of officers usual in such organizations, such as president, secretary, treasurer, and executive committee, who are the affairs of their counties. After the convention the organization will send literature out from time to time, keeping the citizens of the State post-ed as their case develops.

It is the purpose of this organization to place every Negro in the State in immediate touch with every other one in so far as the intentions of the organization are concerned. In order to accomplish results it is necessary to keep as near a complete list of the Negro voters in their counties as pos-sible, so that in case it should be necessary to reach them, time will be saved by having this information at hand at all times.

Address all com W. Sango, chairman, Box 1487, Muskogee, Okla. Ernest D. Lynwood, secretary.

FRENCH ISLAND NEGROES BEST CANAL WORKERS.

Haiti and Martinique Blacks Excell all Others With Pick and Shovel.

French Negroes from Haiti and Martinique excel all other classes of laborers in pick-and-shovel work on the Panama Canal. That is shown in a report to the War Department giv-The South regards this step as a ling the results of recent practical tests of the value of the various classes of laborers employed in excavating rock and earth for the channel through the Gatun lake region. The work was done on the "task" systemthat is, the laborers were paid according to the amount of material they ex-

All kinds of laborers were employed. White Spaniards and Italians recruited in Colon were taken to Bohio. According to the report they were ing and intelligent, but weak and slow, and were able to earn just about enough from daybreak to sunset to keep them alive. Native Panamans, men of the class that excelled on the clearing recently completed by tract, did not find the work of digging profitable.

Negroes from the British West Indies worked in teams, and, the report says, did well enough, but they could also worked in teams, some loading while others dumped the cars. The Negroes of the State apparently lack the means or the spirit necessary made \$1.50 gold a day in six hours of actual work day after day. The report The above clipping is significant ays that they are well nourished, work as rapidly as the English Negro, and keep up their speed all day. "They

It Was the Prize Package Given With Mexican Palace That H. Clay Pierce Bought.

H. Clay Pierce, St. Louis oil magnate, is now the owner of the Borda Gardens at Ceurnavaca, Mexico, and may be said to be the custodian of the ghost of the Borda Gardens. Nothing was said about it when Mr. Pierce which was the favorite summer haunt Carlotta in the days of Mexico's splendor as an empire.

But it is to be supposed that the ghost, having occupied the gardens without leave these many years, will continue to do so, and an occasional glimpse of the ghostly intruder may be vouchsafed to the guests of Mr. and Mrs. Pierce after Mr. Pierce has spent \$100,000 in restoring the gardens and they are ready to entertain their friends there.

Mrs. Pierce, who will be the mistress of the mansion of the mad empress, is an Edwardsville (Ill.) woman, the daughter of Maj. William M. Russell Pickett. Before her marriage Pickett Burrowes.

The mansion, in recent years, has divided into several suites and has been let to tenants. These say that they often see the ghost.

Whose ghost is it, and why it haunts the Borda Gardens nobody pretends ine any smith would be anxious to to know, but it is the belief of the locality that the ghostly appearances have some relation to buried treasure and a dark crime of the long ago.—St.

How Hay Wrote "Little Breeches." done merely for my own amusement, Guardian. without the smallest thought of print. But when I showed it to Whitelaw Reid he seized the manuscript and published it in the Tribune. By that time the lilt and swing of the Pike county ballad had taken possession of me. I was filled with the Pike county spirit, as it were, and the humorous side of my mind was entertained by its rich possibilities. Within a week after the appearance of "Little Breeches" in print all the Pike county ballads were written. After that the impulse was completely gone from . . . There were no more Pike county ballads in me and there never have been any since. Let me tell you a queer thing about that. From the hour when the last of the ballads was written until now I have never been able to feel that they were mine, that my mind had anything to do with their creation or that they bore any trace of kinship to my thought or my intellectual impulses. They seem utterly foreign to me-as foreign as if Hay to G. C. Eggleston, quoted in 'Recollections of a Varied Life."

Good Time to Turn Farmer.

In theory there never was a better time than right now for a sensible man to move from city to country. The movement has been away from the farm until prices of all kinds of food and fiber are high. There is nothing in sight to indicate that prices will be greatly reduced by ingrown and handled with good business sale at a fair price. There never was a time when it was so easy to learn new methods and the principles of scientific farming. A man starting now may receive at once the benefit of 30 years of the experience and study of good farmers and scientific experts. For example millions of acres of land in the eastern states are almost nonproductive and thrown on the market at a low figure, simply because they are waterlogged and sour. When these farms are drained and limed they become at once productive and double in value for farm purposes. They are naturally strong and drainage and lime make their strength available.-H. -W. Collingwood, in Metropolitan Magazine.

a Treadmill.

Through a Mistaken Idea of Duty She Permits Her Life to Become

Why do some women grow old and

youth? Here is one answer: One reason why the average woman wears out, grows plain before her husband, is that, through a mistaken idea of duty, she lays out for herself at the beginning of her married life a scheme or plan of duty and employment for her time, every hour filled with work, with rare and short periods of relaxation.

This she follows religiously for years, feeling that she has done her engaged on the Post; furthermore his duty, because every household event occurs regularly and on time, while she soon becomes merely a machine, a thing without life of itself or volition. She settles into a rut, and goes ceed seven lines in length, and the round and round on the same track everlastingly.

Can any woman keep brightness originality of thought or speech, or even mere prettiness with such a life? And without those things how can she keep her husband and growing children full of loving admiration, which is the strong chain by which she can bind them to her? How bright and Charles Lamb," he said, "I never could folly the neighbor's wife seems when make anything of his writings. Of she calls. In nine cases out of ten it politics he knew nothing; they were is because the surroundings and talk out of his line of reading and of your home are variety to her, and thought, and his drollery was vapid rouse her to originality and bright-

Cultivate a broad attitude toward the world and its people. Let your interests be far-reaching, and there will be renewed vigor when it comes to solve the problems of the home.

WANTED PAY FOR HIS WORK

British West Indian Who Wanted Rec ompense for Building His Own House, Materials Furnished.

An English naval officer tells of beand she was making a convenience of ing on a war vessel which took provime. Of course I love the children, but sions to St. Kitt's, one of the British sending her children over to my house bix years ago a hurricane devastated charge of this fund sent a wagon load of lumber to a husky black man whose house had been scattered over the parish. He and his family were living in a rude shack, made out of odds and ends.

"What's that fur?" he asked of the men who were unloading the material in front of his patch of ground.

"That's for your new house," was the reply. "It's from the relief fund and won't cost you anything." "Who's goin' to build mah house?"

"You are, if anybody does." "Who's goin' to pay me fur mah work?"

Drops Pick as Wife Gets Rich. Michael Flanagan threw down his nick when he got word his wife had fallen heir to \$50,000 left by her uncle, John Hogan, a Brooklyn saloonkeeper. Flanagan has been one of the jolly, devil-may-care workers building a road on Franklin Murphy's large estate, which is being fashioned

out of the wilderness near here. "I'm sorry to leave you, boys," said Flanagan when a lawyer's clerk from Morristown brought the news, "but I'm suddenly elevated to the Rockefeller and Carnegie class, and so I

must be off. Michael, notwithstanding he had money in his pocket, walked a mile in the hot sun to the railroad station rather than pay a nickel on the trol-

"If any part of that \$50,000 gets away from me foolishly it will be when I'm asleep and can't hold on to its wing," remarked Flanagan departing.

Eating Between Meals.

Not much is said about this bad habit nowadays, but is is still a bad habit. Do not let children eat chocobiscuits or sweetmeats at odd times, whenever the whim seizes

This practise leads to many trouble some little ailments connected with

the digestion. Nibbling at crackers and sucking sour balls or taffy are perhaps the most common forms of "eating all the time" and should be checked as soon as the habit is noticed.

A little pure candy may be given for dessert at a meal, or at night before the teeth are washed, but it should not be given more than once a day.

A Misunderstanding. Census Taker-What did you say our name is? Editor of the Century-R. U. John

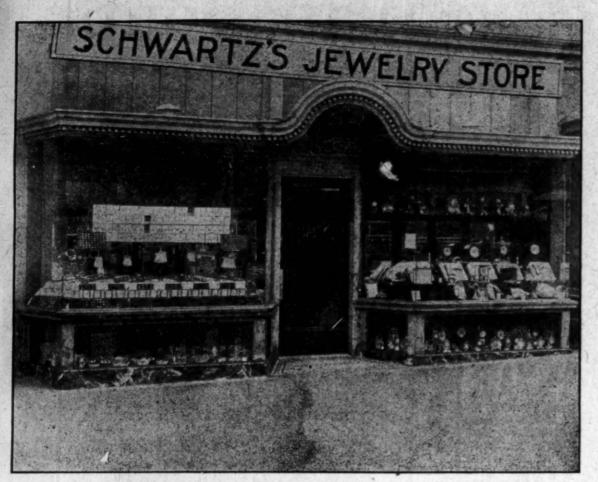

Census Taker-What difference does it make whether I am Johnson or not? You've got to answer the ques tions I ask or get arrested. What did you say your name is?

Unossified.

"Where's the ossified man?" "Fired him." What for?"

"He fell in love." "But that shouldn't have spoiled

him as a drawing card." "That's what you think; but after he fell in love he was the softest thing you ever saw."

THEY KNEW THAT BAD ROAD

Mark Twain Tells How Three Natives Dodged Task of Hauling Stage Through Mud.

Mark Twain was a firm believer in the national movement for good roads, and had many a tale to tell about the incredibly bad roads of some sections. A Hartford man recalled the other day this experience of the famous humorist's: "I once had 30 miles"—so Mark Twain began—"to go by stage in Mississippi. The roads were terrible, for it was early spring. The passengers consisted of five men and three women-three large, welldeveloped women, swathed in shawls and veils, who kept to themselves, talking in low tones on the rear seat. Well, we hadn't gone a mile before the stage got stuck two feet deep in the black mud. Down jumped every man of us, and for ten minutes we tugged and jerked and pulled till we got the stage out of the hole. We had hardly got our breath back when the stage stuck again, and again we had to strain our hearts out to release. her. In covering 15 miles we got stuck eight times, and in going the whole 30 we lifted that old stage out of the mud 17 times by actual count. We five male passengers were wet, tired and filthy when we reached our destination, and so you can imagine our feeling when we saw the three women passengers remove, as they dismounted, their veils, their shawls and their skirts, and, lo and behold! they were three big, hearty, robust men. As we stared at them with bulging and feroclous eyes, one of them said: 'Thanks for your labor, gents. We knowed this road and prepared for it. Will you licker?"

The Perfect Foot.

A woman's foot, when perfect, is A woman of culture and travel has hollowed out well, both inside and out, made a glorious success teaching corwith a high instep, short heel and rect speech. It is surprising how long, straight toes, slightly spatulate much incorrect speech there is among at the ends. our educated people. They cling to

This is the type of the most beautiful foot. It is, on the whole, a foot not frequently seen in its perfection, for often one or the other element of beauty is wanting. The rarest point of beauty is the hollowing of the outside of the foot.

If anyone would convince himself that the hollow of the outside of the foot is rare, let him watch the prints that seaside bathers leave when they step on a dry plank or walk. Most of such footprints show a greater or smaller hollow on the inside of the foot, but nearly every one shows a straight wet mark on the outside, says Woman's Life.

That water should flow under the arch of the foot without wetting it is an old and good rule where feet are There was a man once—a poet. He concerned.

Small Homes.

Green things growing indoors are the most successful antidotes to winter ever devised. Thousands who cannot have a conservatory change the whole temper of a home by a few what did I invite you?" asked the plants. There are many varieties of palm today, both hardy and decorative, and of ferns. Of the many blossoming plants which do well indoors, the place of highest honor, considering what it has done for humanity in the mass, must remain with the humble geranium. A single pot in a hall bedroom often helps a young man or woman through a lonely winter. Many of the newer plants do not require direct sunlight in order to thrive. These points are childishly elementary, but obviousness and human importance often lie very near together.-Collier's.

Letting the Cat Out of the Bag.

which covers the wall to a height of The saying "let the cat out of the twenty-five feet and is twenty inches bag" probably had its origin in the trick of substituting a cat for a young pig in the days when it, was customary for the country folks in England to by the elements.—Literary Digest. take pigs to market in bags. These bags, in old phraseclogy, were called "pokes." If anyone was foolish enough to buy an animal without looking at it, he was said to have bought "a pig in a poke," but if he opened the bag the cat would jump out and breach of promise, and all his poems the trick was exposed.

HIS ELOQUENCE WAS USELESS

Colonel Morgan's Futile Attempt to Persuade Cleveland to Grant Pardon to a Murderer.

Col. Franklin Pierce Morgan of Washington and New York never made but one great speech, and the story of it is pathetic. His audience was Grover Cleveland, then president of the United States, and his purpose was to secure a pardon for a murderer named O'Nell, in whom the colonel had become interested, "I'll never for get that day," said the colonel in telling about the incident. "I had told Dan Lamont the day before that I intended to ask Cleveland to pardon O'Nell, who was a creature of the dark places at times, but a pretty good fellow at that. Cleveland had taken the precaution to send to the department of justice and get the papers in the case. I got up early the next morning, had a massage and was feeling tip-top. I got in to see Cleveland and I spoke 20 minutes. Never in my life, before or since, have I been as eloquent as I was pleading for that fellow O'Neil. The end of every sentence I uttered brushed the edges off a cloud. I concluded my argument, confident that I had swept the president off his feet. 'Mr. Morgan,' he said, 'is that all you have to say on behalf of your friend?' Mind you, he said 'friend.' 'Yes, Mr. President,' said I; 'I think that's all.' 'Mr. Morgan,' he replied, 'never as long as I am in the White House shall that consummate scoundrel-consummate scoundrel, mark you-get out of the penitentiary.' "What's the use of eloquence, anyhow?" concluded the col-

DOG KEEPS PEACE IN FAMILY OLDEST LIVING CREATURES

Glant Tortolse Brought to London From Mauritius Probably Entitled to That Honor.

What species of animal lives to the greatest age is a question that has not been satisfactorily answered, but it is contended that a giant tortoise brought to the London zoological gardens from Mauritius about ten years ago is probably the oldest living creature whose age is positively known.

This tortoise, which weighs a quarter of a ton, has lived at least one hundred and sixty years, as historic documents prove.

It is said that one hundred years is a good old age for an elephant and that no other animal except certain birds and reptiles and the whale reach this span of years. In 1821 there died at Peterborough, in England, a tortoise whose age was said to be two hundred and twenty years. One instance, at least, is known of a tortoise which was still growing when eighty years old.

Tragedy in Prison Cell.

Some time ago a whole family was murdered at Potchep, in southwest Russia. Two men named Gluster and Shnakhin were charged with the crime, and although protesting their innocence to the last the former was hanged and the latter sentenced to a long term of hard labor. It was subsequently ascertained that there had been a miscarriage of justice, and the real murderers were arrested and tried by court-martial at Chernigoff and sentenced to death and were confined in Chernigoff pending execution of their sentences. Two of them were found dead the other day in their cell. They had been strangled by their companion with a piece of twisted linen. The three had drawn lots as to which of them should kill the two others, and then commit suicide. The man who lost fulfilled the first part of the bargain, but at the last moment shrank from doing away with himself.

First Telescope Preserved.

Very few people are aware that the first practical telescope—the one which Galileo used in discovering the satellites of Jupiter in January, 1610, is still in existence and preserved at the Museum of Physics and Natural History in Florence. It is about three hundred years ago since this instrument was first turned toward the heavens. Unlike the present astronomical type, it had a concave instead of a convex eyeplece, just like the opera glasses now in use. When Galileo first exhibited his new telescope to the doge and an enthusiastic assembly he was overwhelmed with honors, because it was thought that the instrument would give the soldiers and sailors of the republic a great advantage over their enemies.-Strand Magazine.

Rain Defeated Napoleon. The plan of Waterloo as laid down by Napoleon was a most brilliant one and had it not rained on the night of the seventeenth of June the man of destiny would in all likelihood have kept his throne. Had it not rained and made the land miry he would have had his artillery in position four days before he actually did, and Wellington would have been disposed of long before Blucher's arrival. Even as it was, the Iron Duke was pretty well used up when the Prussian came up on his left. Napoleon's gentus never shone more brilliantly than it did in his last campaign. He was defeated

woman to keep a secret. Henpeckke-I don't know about thing to me about it.

PROTEST AGAINST "JOLTS"

Our Comfort and Help Shorten Our Lives.

"One need not fear that his liver will really be jerked out of place when a trolley car comes to a stop, says the New York Medical Journal, 'but the sense of such an impending catastrophe is certainly something more than a jarring of the pleasant tenor of one's daily life. It is a source of discomfort that is needlessly varied in a thousand ways, and frequently recurring discomfort amounts to such wear and tear as must enfeeble the vital forces and tend in the long run to the shortening of life, for it is the continual dropping that wears away a stone. The jolts that madden a person also serve to undermine his power of resistance to the malign agencies that more obviously threaten his life.

That freedom from agitation which promotes contentment is well known to be highly conducive to longevity. Statisticians have demonstrated this over and over again, and society ought to exert its full power in the effort to do away with all avoidable sounces of discomfort—the heat of the subway trains, the screeching of locomotives, the clang of bells, the horrid stridor of motor car horns, and all things else that go to make life miserable. To be long lived, we need to be happy, and comfort is indispensable to happi-

CHOATE'S TRIBUTE TO WOMAN

Why He Believes the Bible Story of Eve Being Made From Adam's Best Rlb.

There is no part of the sacred writings that has so impressed me as the history of the first creation of woman. I believe that no invasion of science has shaken the truth of that remarkable record-how Adam slept and his best rib was taken from his side and transformed into the first woman. Thus, sir, she became the "side-bone" of man!-the sweetest morsel in his whole organism! (Laughter.) Why, sir, there is nothing within the pages of sacred writ that is dearer to me than that story. I believe in it as firmly as I do in that of Daniel in the den of lions, or Jonah in the whale's belly, or any other of those remarkable tales. (Laughter.) There is something in our very organism, sir, that confirms its truth; for if any one of you will lay his hand upon his heart, where the space between the ribs is widest, you feel there a vacuum, which nature abhors, and which nothing can ever replace until the dear creature that was taken from that spot is restored to it. (Cheers and laughter.) Follow my example, sir, and place your hand just there and see if you do not feel a sense of "goneness" which nothing that you have ever yet experienced has been able to satisfy.-From a speech by Joe Choate.

Once Enough.

"I am not an inquisitive man," said the minister, "but there is one thing I would like to know. Why do people who marry more than once never get the minister who tied the first knot to tie the second or third or fourth?

"I have married enough couples to earn for me the title of marrying par-Many of those people were prominent enough socially to get their doings recorded in the newspapers and I learn through that medium that a fairly large percentage of them marry again. But they never ask me to officiate.

"Why don't they? Didn't I bring them good luck the first time? Has their experience prejudiced them against me personally, or is there a superstition that prevents a man being married twice by the same minister?

"Even members of my own congregation who marry again seek a strange minister. Why?"

Memorial to Aviators.

At Louveciennes there is a memorial which commemorates the ascent of the first Montgolfler balloon. The brothers Montgolfier were on friendly terms with the celebrated statesman Boissy d'Anglas, and they offered to make their first experiment in his park. After the famous ascent, Francois Antoine Boissy d'Anglas erected a little column to commemorate the event, simply bearing the date. The ravages of time are seen on the column, and the date is almost obliterated. To the casual observer this famous landmark is only a mystery, but Boissy d'Anglas evidently saw the possibility of aerial flight by erecting this modest memorial.

Thickest 8kin of Any Animal. The skin of a hippopotamus is about

the thickest covering worn by any animal on earth. That of the whale is only slightly thicker, but then the whale lives in the sea and not upon the earth. By reason of this thick hide the hippopotamus can laugh at ordinary bullets, which merely tickle him unless they strike him in the eye, the nostrils or the ears. Therefore, when shooting hippopotami, the sportsman uses plosive bullets with sharp steel points.

There's a Reason. Wilfred-Ma, I wish I was cross-

Mrs. Billtops Objects to the One Ingenious Method That Pleases Her Husband.

"As some sage has remarked," said Mr. Billtops, "the longer we lives the more we finds out. You take, for instance, the mending of a trousers is provided with a perfect lightning pocket that has a hole in it down at conductor. The conductor, however, the bottom, so that you are in danger must have no defects. If it be broken of losing out of it your keys or your or have a faulty earth connection it pocket knife or such small change as is then a source of grave danger. you may there carry.

"Now I supposed there were just three and no more. One way would be to put a patch on it, another way pocket and sew on a new section, and from contact with the wall. still another way would be to put in an entire new pocket; but the tailor to whom I took these trousers to be fixed up has shown me a fourth way the fireplace. Outside the house the that made me laugh for its simplicity and at the same time as I thought in- walls and buildings and fron fences.

genuity. "He just folded over the bottom of the pocket high enough up to cover the hole, and then just stitched the pocket across through the folded over part and the main body of the pocket, this you see something that could be done in a minute and that at the same time served its purpose. I admired it for its ingenuity and effectiveness, but Mrs. Billtops doesn't look at it as I do.

"She says that if it's a sloppy way of mending a pocket, that it makes the pocket shallower, for one thing, and that then that folded over part, making the pocket of double thickness, makes a ridge there which is ATHLETES OF OLDEN- TIME not desirable. She says that she has mended pockets that way herself, but that it is not a good way, and I guess she's right; she generally is."

The lady's pushed and advertised.

A British investigator is ungallant enough to state that the reason why women are as a rule of a beauty not attained by man lies in the fact that prone to "exercise their brains" as men are. Intellectual labors and assiduous attention to business are, actremely prejudicial to the development of physical beauty.

In support of his theory this Briton points to the Zaros, a tribe of British Among them, it appears, women hold the place that in other countries is pre-empted by men. The Zaro woman manages the affairs of state, engages in business on her own account and does not restrict herself in the narrow field of woman elsewhere. On the other hand, the Zaro man has nothing to do but cook the meals and look after the children. The natural result of all this, says our scientist, is that the men of this singular tribe are "very pretty" and the killed by hunters, and they estimate women unusually plain.

Brought Bees to Earth.

A rather novel way of capturing a swarm of bees was adopted in North Hants, England, recently, where a gamekeeper found that a roving colony had settled high up on a beech tree fifty or sixty feet above the ground in his garden. A man went to his assistance and spread a cloth on the ground on some hay just beneath the swarm. The keeper fired a shot which cut away the bough from which the bees hung from the tree. They fell like a bunch of grapes on to the cloth, and a "skep" was immediately placed over them. The swarm weighed nearly five pounds, and the bees appeared to be none the worse for their treatment.

Strange Juvenile Depravity.

An extraordinary case of juvenile crime recently occurred at Rossenfeld, near Munich, where two choir boys have been sentenced to several years' imprisonment for polsoning sacramental wine. The elder boy stole some hydrochloric acid, and the younger who was assisting the priest at mass, poured the poison into the wine. The first person who tasted the wine fortunately noticed that something was wrong, and a strong emetic was administered by a doctor in the congre-

MENDING TROUSERS POCKETS DANGER PLACES IN STORM

Bell Wires, Open Windows and Fireplaces Should Be Avoided When Lightning is Flashing.

What is the safest place in a thunderstorm? As a rule the safest place of all is inside a building which

In an ordinary dwelling house, unguarded as it usually is against lightthree ways of mending that pocket, ining, a safe place is the middle of the largest room, where one is away from the walls, or a still safer precaution would be to cut off the bottom of the is to lie on an iron bed drawn out

> The most dangerous places in the house, we are further told, are near the bell wires, or an open window, or places of danger are proximity to Another danger is a crowd. The vapor which rises from a crowd tends to lead a flash toward the crowd. In the open country one of the most dangerous places is the bank of a river. Avenues of trees, lakes and hedges are likewise dangerous.

If any one doubts the danger of a hawthorne hedge let him take his stand at a safe distance during a respectable storm and watch the effect. The lightning will dart along the hedge like sheets of fire. If the observer gets wet to the skin, so much the better for his safety.

Those of Greece Wore Hair Cropped and Were Subjected to Very Careful Diet.

Some interesting comparisons may be drawn between ancient and modern athletes. The athletes of ancient Greece, for example, if they should appear to view today, would not be taken for a football team.

The old-time man of muscle wore his hair cropped, a distinguishing feajust before the contest.

Their bill of fare consisted of fresh cheese, dried figs and wheaten porbeef and pork. Bread was not allowed with meat, and sweets not at all.

At one time a strange custom of diet came into vogue. Every day at the for other sports.

An Australian Plant Pest.

Just thirty years ago a lady at intention was to have one or two of the plants at hand for medicinal purposes. The hardy weed, however, soon spread beyond the garden, and before anyone had grasped the magnitude of the evil it had been carried by cattle along all the main stock routes and jumped the Victorian watershed into they are more indolent and not so Gippsland. It has now completely taken possession of something like 20,-000 acres of agricultural land, and the agricultural department of Victoria is cording to this authority, matters ex- spending thousands of pounds in the endeavor to eradicate it, some of the methods tried costing nearly 250 an sore.-Westminster Gazette.

Object to Slaughter of Llons.

According to some of the farmers of East Africa, the lion should be protected as a useful animal, notwithstanding the fact that once in a while he kills a man. The lion, they maintain, is a great destroyer of noxious herbivorous animals, such as zebras and antelopes, which are a scourge to the fields. In one district they say no fewer than 46 lions have recently been that this represents the saving of 35,-000 to 40,000 zebras and antelopes which would otherwise have fallen s prey to the lions that have been destroyed. Of course, the hunters shoot zebras and antelopes, but this fact, they think, does not counterbalance the destruction of those animals that would have been effected by the slain lions.

Curiosities of Smell. No substance that refuses to dissolve in water has an odor. It is the actual substance itself, floating in particles in the air, that appeals to the nose, and not simply a vibration of the air, as in the case of light and sound. The damper a thing is the more powerful the odor it gives off. A pleasant proof of the fact can be had by walking in a garden after rain. There is no end to the curiosities of smell. It is, for instance, the vapor of a liquid that smells, and not the liquid in the mass, itself. If eau de cologne be poured into the nostril the nose refuses to recognize any odor there at

Thomas Walker, Attorney. Supreme Court of the District of Columbia, holding Probate Court. Estate of Matilda Tyler, deceased No. 15537 Administration Docket.

Application having been made here-in for probate of the last will and testament and codicil of said deceased, and for letters testamentary on said estate, by John W. Brunson, it is ordered this 17th day of August, A. D.
1910, that the unknown heirs-at-law
and next of kin of said Matilda Tyler,
deceased, and all otherse concerned,
appear in said court on Tuesday, the appear in said court on Tuesday, the 27th day of September, A. D. 1910, at 10 o'clock a. m., to show cause why such application should not be granted. Let notice hereof be published in the Washington Law Reporter and The Washington Bee, once in each of three successive weeks before the return day herein mentioned-the first publication to be not less than thirty days before said return day.

JOB BARNARD, Justice.

Attest: JAMES TANNER,
Register of Wills for the District of
Columbia, Clerk of the Probate Court. THOS. WALKER, Attorney.

HERE'S A GOOD CHILD STORY

One Which Comes From the Family of a Boston Educator and Has Unusual Originality.

Perhaps the most startling child story extant, however, comes from the family of a famous Boston educator, whose children all are distinguished by an unusual degree of originality. Several boys and girls of various ages have been adopted into this family, so the sudden appearance of new and well-grown associates seems to the younger members quite natural. This ather unusual attitude toward family growth worked out oddly a year or two ago, upon the occasion of the Christmas play, which the little ones annually write, rehearse and produce, quite without adult assistance, for their parents.

The plot of the play included the financial redemption of a highly worthy couple—this being an extremely cultured and sociologically learned yet natural group of youngsters-by the good luck of the husband, played by an eager urchin of seven, in the gold fields of Alaska. The happy bridegroom returned to his weeping bride of a year in the nick of time, bearing with him a huge and heavy bag of gold. The bride, in a neat speech, revealed to him the povertystricken, hungry straits to which she had been reduced, and warmly commended his skill and industry in gold finding. Then, rising with a proud and modest air, she gently informed him: "And I, meanwhile, have not been idle!"-and, drawing a convenient curtain, disclosed an assorted group of laughing boys and girls as

'Our children, dear!" The audience, not unnaturally, rocked with helpless laughter, but those dear little lads and lasses still are wondering why.

VALUE OF PROPERTY RIGHTS

How One Small Boy Was Cured of Destructive Propensities by a Lasting Lesson.

a playmate, in a game used the lights in a neighbor's henhouse for a target The owner of the damaged property visited both homes, where the culprits hid in dismay, and collected damages.

Here was a valuable opportunity for a lasting lesson. I called my boy to me, and we talked the matter over, he having full chance to explain his side of the case. Then the mischief he had wrought and the reputation it might give him were gravely dis-

He voluntarily offered to refund the amount of his part of the damage out of his small savings until full restitution was made. This was finally agreed upon, and here came the hard part for the boy. His pocket money allowance was 25 cents a week, which was frequently reduced by fines for ill-temper or other sundry breaches of etiquette or duty. It took him seven weeks to get out of debt.

When the last cent was paid he gave a sigh of relief, and said: "There, I'll never destroy anything again as

Baked Fish.

Clean, wash and dry the fish and sprinkle the inside with salt, gashes in the side two inches apart and tie fish in letter S shape. Rub with salt, pepper and melted butter and put a piece of salt pork in each gash in the side. Put in oven to bake and baste often. Add following dressing: Take cupful of cracker crumbs two tablespoonfuls melted butter, one saltspoon salt, one of pepper, one tablespoonful of chopped pickle, one tablespoonful parsley and one tablespoonful of onion juice. Add hot water to moisten.

Hot Chicken Salad.

One tablespoonful of butter, melt, add one tablespoonful of flour mixed with a pinch of salt, a little pepper, cayenne, and if liked celery salt, or for a change a few drops of onion juice. Use about a cup of milk to make a cream. Stir in a beaten egg, then carefully a cup of chopped chicken meat. Don't stir much after adding the meat. Veal is good instead of chicken, and lamb can be used, but cut it into little dice instead of chop ping it. Serve on toast or with fried

AMERICAN PLEASURECLUB Round Trip 25Cents

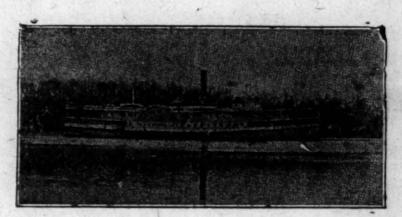

To my friends and the public in general:

It is with pleasure that I take this opportunity to inform you that the books of the Independent Steamboat and Barge Company are now open for charters for Excursions during the coming season, and it will be to your interest to call at once and secure the most desirable dates.

Our terms are most liberal andcharters can be made for Washington Park and Somerset Beach

To which place we have the exclusive excursion rights as well as Mathias Point, Rock Point, Norfolk, White City, Richmond, Baltimore and all points on the Potomac River and Chesapeake

Our facilities for chartering parties are unsurpassed in every respect. Our large covered wharf (used exclusively for our excursion business) enables us to give you most modern and up-todate service. No crowding, no exposure and our schedule between Washington and Washington Park does away with the long and tiresome waiting for the steamers.

Before the construction of Washington Park absolutely no place of recreation was affordedthe people of our race, and I proudly point to the fact that I have fulfilled the demands of the people in every respect.

You have one of the best and most modernly improved resorts in this part of the country. Washington Park with its myriads of electric lights, mammoth scenic railway, huge carroussel, dance hall and numerous smaller amusement devices is surpassed in point of natural beauty and modern equipment by no resort south of New York.

By perseverance and an enormous cash outlay I have done this, and now I ask you to show me that I have your hearty support by calling at once and making charters for the coming sea-

Yours for pleasu ure and comfort, 1910 First Street, S. W. Lewis Jefferson.
